- Alumino-Thermic Corp., Developments in welding 849
- Aluminum alloy—Duralumin, Baush Machine Tool Co. 131
- American Car & Foundry Co., Rex coach seats of improved design 603*
- American Car Door Co., Car door operating device 599*
- American Engineering Co., Mono-rail hoist designed for low head room 189*

AMERICAN RAILWAY ASSOCIATION, DIV. V—MECH.

- Appreciation for the, by W. W. Atterbury 422*
- Draft gear capacity, Relation of, to rough handling 753†
- Economy from modern shop machinery, by S. W. Mullinix 476
- Equipment Painting section proceedings 687, 751
- Gage for car wheels, new standard.... 819
- Lock lifter for type D coupler, new.... 696*
- Proceedings 1923 convention 407§, 421*
- Reporting the 1923 meeting 321§
- Report of the Arbitration Committee... 451
- Report of Committee on Car Construction 425*
- Report of the Committee on Loading rules 526*
- Report of the Committee on Nominations 540
- Report of the Committee on Tank Cars. 465
- Report of the Committee on Wheels.... 453*
- Report of the General Committee.... 537
- Report on brakes and brake equipment. 467
- Report on electric rolling stock 529
- Report on locomotive and car lighting. 471
- Report on locomotive construction.... 503*
- Report on prices for labor and materials. 475
- Report on shops and engine terminals.. 477*
- Specifications and tests for materials.. 533
- The work of the, by W. B. Storey.... 423*
- American Railway Engineering Assn., Stresses in straight and curved track.... 270*
- American Railway Tool Foreman's Assn. (see Tool Foremen's Assn.)
- American Saw Mill Machinery Co., Saw table and hand jointer 372*
- American Society for Steel Treating (see Steel Treating Society)
- American Society of Civil Engineers, Stresses straight and curved track 270*
- American Society of Mechanical Engineers, Meeting of railroad division 14*
- American Tool Works Co., Two new developments in lathes 373*
- Anderson, P. D., Economy of balanced compound locomotives 6†
- Anderson, P. D., Expanding exhaust nozzle for locomotives 323*
- Appleton Electric Co., Heavy duty Reelite.. 392*
- Apprentice competition article, by Alfred H. Burnham 677*
- Apprentice competition article, by Dale C. Sheffield 737*

- Apprentice competition article, by E. B. Fields 674§
- Apprentice competitions, The 321§, 406§, 551§, 674§
- Apprentice system, Car department, by H. L. Shipman (C. I. and C. F. convention).... 26
- Apprentices, Training mechanical department, by John Purcell (Div. V-Mech.)... 497*

ARBITRATION COMMITTEE DECISIONS

- Case No. 1233—Insufficient proof that repairs were not made 111
- Case No. 1234—Delivery line's responsibility for wrong repairs 111
- Case No. 1235—Protection of delivering line after defect card is issued 112
- Case No. 1236—An application of Rule 32 112
- Case No. 1237—Responsibility for per diem when repairs do not conform to Rule 120 230
- Case No. 1238—Does Rule 113 apply to relations between railroads and industries? 112
- Case No. 1239—Application of Rules 32 and 43 to damage caused in switching 112
- Case No. 1240—Responsibility for missing air hose—car not offered in interchange 230
- Case No. 1241—What constitutes collision under Rule 32 160
- Case No. 1242—Do unit charges for bolt renewals in passenger Rule 21 include jacking? 160
- Case No. 1243—Break-in-two not evidence of handling line responsibility under Rule 32 160
- Case No. 1244—Repair card the basis of decision in claim for wrong repairs... 230
- Case No. 1245—Cars break away while switching; Handling line responsible for damage 280
- Case No. 1246—Handling line responsible for damage caused by lack of precaution in coupling to train.... 230
- Case No. 1247—Responsibility for missing parts—Passenger rule 7 578
- Case No. 1248—Responsibility for cost of transfer 280
- Case No. 1249—Rule 91—Scope of 60-day limit 578
- Case No. 1250—The relation of rule 12 to rule 91 578
- Case No. 1251—Responsibility for failure to stencil air brake cleaning date 697
- Case No. 1253—Intent of Rule 60 where broken parts of triple valve are renewed 578
- Case No. 1254—What constitutes acceptance of cars under Interchange Rules? 578
- Case No. 1256—Responsibility for missing brake rigging removed from passenger car to permit safe operation... 577
- Case No. 1257—Substitution of steel tired for wrought steel wheels, improper repairs 697
- Case No. 1258—Net store department costs applicable on non-standard roof. 698
- Case No. 1259—Bill for improper roof repairs confined to labor 698
- Case No. 1260—Cleaning air brakes more than once within 60 days.... 698
- Case No. 1261—Responsibility for damaged car due to weak construction 698
- Case No. 1262—Owner responsible for defects resulting from long usage.... 757
- Case No. 1263—Repairing line's judgment sustained as to needed repairs.. 757
- Case No. 1264—Another case of damage due to weak construction 758
- Case No. 1265—Owner's defects associated with unfair usage defects.... 758
- Case No. 1266—Non-interested line delivers defective car to owner.... 758
- Case No. 1267—Another case where Rule 32 does not apply 758
- Case No. 1268—Prices in effect on date of repairs to govern charges under Rule 120 758
- Case No. 1269—Labor allowance for applying draft gear bolts 759
- Case No. 1270—Where wrong repairs are claimed joint evidence is necessary 826
- Case No. 1271—Final cost of repairs exceeds Rule 120 allowance 826
- Case No. 1273—Time limit for making repairs 826

- Arbitration Committee, Report of the (Div. V-Mech.) 451
- Arch bars, Form for ordering, by F. C. Watrous 829*
